

The 3-in-1 Jewelry Welding Solution

- Pulse Arc Mode -
For Larger Welds and
Thicker Metals
- Micro Pulse Arc Mode -
For Tiny, Intricate Welds
and Thinner Metals
- Tack/Fusion Mode -
For Temporary Placement,
or Permanent Fixing

Orion Jewelry Welders are designed to provide a laser welding alternative for jewelers at an affordable price.

The Orion's large LCD screen provides easy access to all of the advanced user options such as Save Settings, Lock Settings, Gas Flow Adjustment, and other various preference settings.

Junior apprentices and master jewelers alike will find the Orion to be the perfect addition to any jeweler's bench.

Fill and Fix Porosity
in Seconds

Retip a Prong with
the Stone Still Set

Temporarily Tack or
Permanently Fuse

Complete
